

PAPER LANTERN INSTRUCTIONS

These decorative paper lanterns add an incredible new dimension to any party décor. They are especially stunning when used outdoors but will accent nearly any space. Mix and match the colors and sizes to customize the lanterns to your individual needs

Shown to the right are the items included with your lantern. Follow the instructions below for easy assembly.

LANTERN

EXPANDER

1. Expand Lantern Carefully.

2. Insert expander through largest opening of lantern with eyelets on the top.

3. Press the expander and insert Convex B into Eyelet A for both. Handle Carefully to avoid breaking the paper

4. Be sure to bend the expander properly so that it is curved.

5. Pass the electric cord through the fixing cable found on top of the expander. Then, adjust the cord and light bulb accordingly, making sure the light bulb does not touch the paper.

Maximum Light Bulb Wattage

Lantern Diameter (Approximate size)	Max. Wattage
12" (30 cm)	40 watts
16" (40 cm)	60 watts
20" (50 cm)	100 watts
